BUY AMERICA CERTIFICATION

Project Number

Project Description

Company Name

We hereby certify that the steel, iron, manufactured products, and construction materials used in association with the Project were produced in the United States in accordance with all the requirements and provisions of Buy America and the Build America, Buy American Act (BABA) including, but not limited to, 23 USC §313, 49 USC §5323, 23 CFR §635.410, and 49 CFR §661 and any revisions as per the Infrastructure Investment and Jobs Act (H.R. 3684) unless otherwise exempt or waived. We shall provide written notice (to include adequate reasoning, authority, and supporting documentation) in the event of such exemption or waiver.

It is understood that we are required to retain material certifications and related documentation proving Buy America and BABA compliance. It is further understood that the State reserves the right to perform audits of our records to further ensure Buy America and BABA provisions were met during and following completion of the Project. If we are unable to provide required justification, documentation, and certifications or if it is determined that we utilized items that do not comply with Buy America and BABA requirements, then we shall replace non-compliant products with compliant products at our sole cost. It is acknowledged that the State may take additional measures as necessary to ensure Buy America and BABA compliance. The measures may include withholding reimbursement; seeking monetary compensation; holding utility permits for any active or proposed work; or as otherwise outlined in the DelDOT Utilities Manual Regulation (2401 of DE Administrative Code).
