Chief of Traffic Engineering

DATE: February 12, 2025

SUBJECT: **Interim Guidance; Part 2, Signs**
Bipartisan Infrastructure Law Signage

This Interim Guidance to the Delaware Manual on Uniform Traffic Control Devices (DE MUTCD) is related to the discontinuation of signs displayed at project sites for projects funded under the Bipartisan Infrastructure Law (BIL), also known as the Infrastructure Investment and Jobs Act.

DelDOT provided the following Option, Guidance, Standard and Support statements regarding Bipartisan Infrastructure Law signs on July 27, 2023:

Support:

01 The U.S. Office of Management and Budget has determined that the use of signage to increase public awareness of and transparency regarding the investments made by the Bipartisan Infrastructure Law is a reimbursable expenditure under federal law. Accordingly, the U.S. Department of Transportation and FHWA encourage the use of public signage on all BIL-funded transportation construction sites, as well as acknowledgement of other BIL-funded projects as appropriate.

Guidance:

02 Until further notice, projects that use federal funding should install two signs, one in each direction on the major road of the project.

Option:

03 Small projects may omit these signs.

04 Larger projects (in or outside of DelDOT) may install these signs.

Standard:

05 Projects that do not include federal funding shall not use these signs.

06 The signs shall have a green background with white letters as shown in Figures 1 and 2 below.

Remove Language

- *Delete the DE Revision language regarding Bipartisan Infrastructure Law signs.*

Effective immediately, the use of the Bipartisan Infrastructure Law sign shall be discontinued.

Furthermore, DelDOT projects shall no longer fabricate, install, maintain, or replace this sign.
